

Biology 112 Chap 7 Vocabulary

organelle	cell membrane	
cytoplasm	cell wall	
nuclear envelope	lipid bilayer	
chromatin	concentration	
chromosome	diffusion	
nucleolus	equilibrium	
ribosome	osmosis	cell specialization
endoplasmic reticulum	isotonic	tissue
Golgi apparatus	hypertonic	organ
lysosome	hypotonic	organ system
vacuole	facilitated diffusion	
mitochondrion	active transport	
chloroplast	endocytosis	
cytoskeleton	phagocytosis	
centriole	pinocytosis	
	exocytosis
