

Types of Chemical Reactions

Synthesis (putting together)

Decomposition (taking apart)

Single Displacement

Double Displacement

Dec 18 - 6:26 PM

Synthesis

hydrogen gas + Chlorine gas \longrightarrow

May 12-8:47 AM

Decomposition

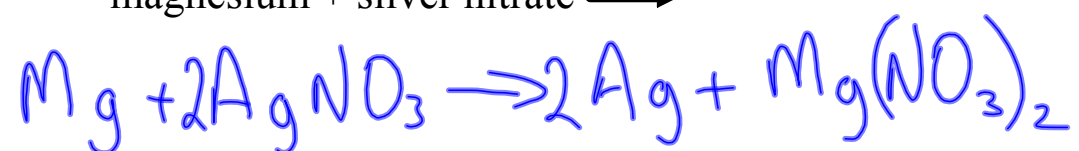

water →

May 12-8:46 AM

Single Displacement

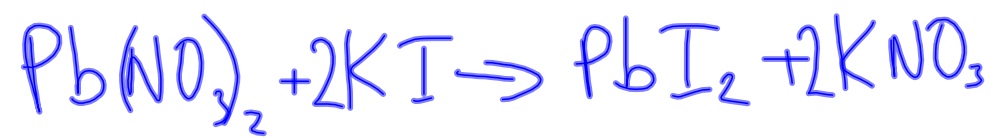

magnesium + silver nitrate →

May 12-8:46 AM

Double Displacement

lead (II) nitrate + potassium iodide →

May 12-8:47 AM
