

Science 10

Matter Unit Review Questions

These will be collected MONDAY, February 27 and counted as your UNIT Evaluation.

p. 130

#1 a-n (omit k), 2 a-n (omit i), 4-10, 11,17,
20-22, 24,26,28

} 55 Points

Poster Project-20 points

You will be assigned one of the first 22 elements. Your project is to create a poster on an 8.5 X 11 sheet of white paper, that somehow represents the properties of that element or how it is used by us. The SYMBOL, ATOMIC # and NAME must appear on the poster somewhere. Use the full sheet of paper and be creative and have some fun!

Due Friday, March 9th
