

Reproduction Unit Chapter 5

Copy the following words into your notebooks.

anaphase	gene
asexual reproduction	Golgi apparatus
binary fission	lysosome
budding	metaphase
cell cycle	mitochondrion
cell membrane	mitosis
cell wall	nucleolus
centriole	nucleus
chloroplast	organelle
chromosome	prophase
cilia	ribosome
cytokinesis	sexual reproduction
cytoplasm	spore formation
endoplasmic reticulum	telophase
flagellum	vacuole
fragmentation	vegetative reproduction
