

OP110 Low Level Games Assignment Value 40

Choose a low level game to teach to the rest of the class. You may choose a low level game that you know or you can make your own low level game. You will receive a better mark if your game is unique. You will have 12 minutes to teach, demonstrate, and get the class to play your game. Your job is to explain the rules of your game and teach everyone how to play in a loud clear voice. Next get everyone in the class to play the game. No dodge ball please! You must also hand in a written explanation of your game and it must include a proper title page. Good luck and remember to find a unique and fun game that everyone is going to want to play.

Groups: 2 or 3

Time: 2 classes

Due: to be played in $\frac{1}{2}$ gym using resources available...completed project to be ready anytime after Wednesday Oct 30 with 1 days notice in advance
