

Assignment #2 Reference Angles

This assignment should be completed and sent to me on or before May 4/20.

All answers should be neat and clear.

Assignment #2 Reference Angles

1. What is the reference angle for each rotation angle in standard position?
Include a labelled sketch for each rotation angle and its reference angle.

a) 190° b) 750° c) -75°

2. Determine the measure of the three other angles in standard position, $0^\circ \leq \theta \leq 360^\circ$,
that have a reference angle of 22° .
Include a separate sketch for each.
