NSER Mission: It is the mission of NSER to support and challenge students to meet and exceed their potential.

NSER Vision: NSER's number one priority is the intellectual development of its students and also giving priority to social, emotional and physical development.

NSER Values: The intellectual, emotional, physical, and social needs of each child will be developed to his or her fullest potential. Expectations for students will be age appropriate and pedagogically based. A spirit of cooperation will be fostered among students, staff, and community. All students and staff will show respect for students, staff and the campus. All students will be encouraged and given the opportunity to participate in extra and co-curricular activities. A high moral standard will be exemplified by the staff, and expected of our students.

1st Annual Athletic Banquet

NSER will hold its first ever Athletic Banquet on Wednesday, May 24th. We look at this event as a fantastic opportunity for us to celebrate our school athletes and coaches, to recognize outstanding student contributions in athletics, and to inspire students to continue on their path of an active and healthy lifestyle.

For most students, their high school years as student athletes are their one opportunity to shine. There are a number of life lessons learned playing high school sports: teamwork, dedication, learning to deal with failures, management of time and sportsmanship are essential lifelong building blocks for their future successes. These student athletes deserve to be celebrated and recognized.

Please join us to celebrate our school's athletes and coaches. The cost is \$12 per ticket however student athletes do not have to pay for their ticket. We will have a Canadian Olympian here as our guest speaker and will be doing all our sports awards that evening including Athlete of the Year. Students will be selling the tickets at lunch. Hope to see you there!

INTERNATIONAL STUDENTS

AEI will be sending a new group of students to NSER in the fall of 2016. We will be looking for families that are willing to host these students from September to December 1. A full term either fall or spring, or for the full year. Students will be coming from such countries as Germany, Brazil, Colombia, China or Spain. These students will be mostly high school, grades 10/11, however there may be opportunities for middle school as well. Host families will receive a stipend of \$700 per month to host these students. We would like to confirm the number of host families as early as possible, so if this is something you may be interested in please let the school know. You do not have to have a student attending NSER but it does make for a better experience.
