The Winter Camp Program, involving students from the Concord Colleges of Sino-Canada, will take place for one week at New Brunswick High Schools. The dates for this year's Winter Camp will be February 3 – February 10, 2018.

Science for Grade 7, 8, 9, 10

As a project for science all of the grade 7, 8, 9, 10 students were instructed to build a catapult.

We had limited supplies – only using cardboard, duct tape and a bungee cord. There was only a mere 3 days to

complete this task, which proved to be quite difficult. As the competition drew nearer the more hurried peoples efforts got. Most students managed to have theirs done in time before the big day. When competition day arrived it was a chance to see all the unique designs and structures people had thought of. There were smiles plastered on every face whether you did or didn't win a prize. It was a great way to spend the morning with educational benefits too. It taught us to be resourceful, taking small ordinary things and making them great!
